

January 3, 1961

Prof. A. Klopstock, Rector
Tel-Aviv University
155, Herzl Street
Tel-Aviv, Israel

Dear Professor Klopstock:

This is in reply to your letter of December 16. I am very pleased to note your development and wish I could make more specific suggestions than the following observations which may be of some use to you.

1) My former student and colleague, Dr. Norton Zinder, Rockefeller Institute, 66th and York, New York 21, New York would be a splendid candidate for you and I would recommend him as your first choice. But I do not know whether he is free to accept, and if not you might consider these courses:

2) Publish your requirement in the forthcoming Fulbright program.

3) Consult Professor F. J. Ryan who may now be in Israel (consult U.S. Consulate or U.E. Education Office in Israel).

4) Consult the following:

S. E. Luria, A. Novick, E. Adelberg, A. Lwoff, E. S. Anderson, E. Calef (Pavia), Leo Sachs.

5) Dr. Rananah Ben-Gurion should have some useful suggestions for you based on her own studies and travel. I do not know whether she is now in Israel or still with Lwoff in Paris.

I will be interested to know of your developments in this field as they are realized.

Cordially,

Joshua Lederberg
Professor of Genetics

Klopstock, A.
